## **DETAILED ACTION**

### **EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 4-15 non-elected without traverse. Accordingly, claims 4-15 been cancelled.

### ***Reasons for Allowance***

2. Claims 1-3 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The prior art of record fails to disclose the combination of a method of fabricating a semiconductor substrate for a compound semiconductor device recited in the base claim 1. Specifically, the combination of the process comprising creating a buffer region by causing a first compound semiconductor to grow epitaxially on the baseplate, the buffer region possibly containing dislocations; creating a dislocation refracting region on a major surface of the buffer region by causing a second compound semiconductor, different from the first compound semiconductor, to grow epitaxially on the major surface of the buffer region, the dislocation refracting region having a major surface with

a multiplicity of protuberances capable of refracting extensions of the dislocations from the buffer region; and creating a leveling region on the major surface of the dislocation refracting region by causing a third compound semiconductor, different from the second compound semiconductor, to grow epitaxially on the major surface of the dislocation refracting region, the leveling region having a major surface of greater levelness than the major surface of the dislocation refracting region whereby the leveling region is less in dislocation density than the buffer region and the dislocation refracting region as the dislocations created in the buffer region are refracted away from the leveling region by the protuberances on the major surface of the dislocation refracting region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
